EXPERIENCE

Internship in Planning, Monitoring & Evaluation

Muhanga District

2024 (1 month)

Muhanga, Rwanda

- Gained hands-on experience in Planning, Monitoring, and Evaluation systems
- Acquired knowledge in population census systems and data management
- Developed understanding of government administrative processes

Django Web Development Course

Solvit Africa

2025 (3 months)

Sonatube-Remera

- Completed intensive 3-month course on Django web development
- Gained hands-on experience in building dynamic, data-driven websites and web applications
- Learned to design and implement scalable web solutions using Django and Python
- Acquired practical knowledge in developing and consuming APIs
- Mastered front-end integration, user authentication, and database management

PROJECTS

Application of Frobenius Method for Solving ODEs

University of Rwanda

- Applied mathematical modeling techniques to solve ordinary differential equations with variable coefficients
- Implemented the Frobenius method for series solutions to complex differential equations
- Developed computational tools for mathematical analysis and problem-solving

Intelligent Data Cleaning System

Personal Project

- Built an AI-powered system for automated data cleaning and preprocessing
- Developed user-friendly interface for data quality assessment and improvement
- Created tools to handle missing values, outliers, and inconsistent data formats

SKILLS

Microsoft Excel

LaTeX Typesetting

OS: Linux

Github

Python Programming

R Statistical Computing

SQL (Database)

MATLAB

Data Visualization (Power BI)

Statistical Analysis

Web Development (Django)

Mathematical Modeling

AWS

Database Management

Data Cleaning & Preprocessing

LANGUAGES

Kinyarwanda (Native)

● ● ● ● ●

- Native speaker with full professional proficiency

English (Fluent)

● ● ● ● ●

- Fluent in writing, reading, speaking, and listening
- Academic and professional communication

EDUCATION

Msc. Mathematical Science specialization in Data Science

African Institute for Mathematical Sciences (AIMS)
Rwanda

Sept/2025 – June/2026

Rwanda

- MasterCard Scholarship
- Specialized in Data Science, Machine Learning, and Statistical Analysis
- Advanced coursework in computational mathematics and AI
- Research-focused curriculum with practical applications

B.Sc. in Applied Mathematics

University of Rwanda, Kigali

2022 – 2025

Kigali, Rwanda

- Government of Rwanda Scholarship
- Focus on mathematical modeling, statistics, and computational methods
- Thesis on differential equations and mathematical analysis

REFERENCES

Dr. Lema Seknewna

@ Data Scientist & Professor at AIMS Rwanda

✉ lema.seknewna@aims.ac.rw

AIMS RIC -Rwanda

- Currently Supervisor in my Masters Thesis
- Can attest to skills in Data analysis with python

NYAGAHAKWA Venuste

@ Lecturer at University of Rwanda

✉ +250 788 548 242

- Academic reference from university studies
- Can attest to mathematical and analytical abilities
